

CREATING LOCAL PARTNERSHIPS TO END HUMAN TRAFFICKING

Join us for a half-day event aimed at bringing together leaders from the energy industry and law enforcement. This event is designed to provide training, foster network building, and devise shared strategies to combat human trafficking.

The session will focus specifically on human trafficking in North Dakota, offering insights into engagement strategies for energy companies and their contractors. It will feature presentations by a survivor-leader and law enforcement officials.

For any questions, please contact Annie Sovcik at asovcik@tatnonprofit.org
